can't open the door

It's a fact every parent must face! The Church is eager to provide our children with religious training. And our children need this training. But THEY can't open the door. We must come with them. We must worship every Sunday . . . and take

an active part in the classes and ac-

tivities of the Church for adults -

not for ourselves alone. For a child values supremely the example of his parents. If they love their Church — he loves it too! If going to Church is too much trouble for them — it's too much trouble for him too!

God gave us these little souls to love . . . to nurture . . . to raise to Christian manhood and womanhood. And God gave us churches . . . to enrich our lives and theirs.
